

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, JUNE 10, 2006 – 0800 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light nationally with 132 new fires reported. Eight new large fires (*) were reported, two each in the Southwest, Southern and Eastern Great Basin Areas, one each in the Western Great Basin and Southern California Areas. Eight large fires were contained, four in the Southern Area, three in the Southwest Area and one in the Western Great Basin Area. Very high to extreme fire indices were reported in Alaska, Arizona, Colorado, Nebraska, New Mexico, Nevada, Utah and North Dakota.

SOUTHWEST AREA INCIDENTS/LARGE FIRES:

BLACK MOUNTAIN COMPLEX, Phoenix District, Bureau of Land Management. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 11 miles northeast of Bullhead City, AZ in brush. The complex consists of the Union, Secret, Nutt, and Airpark fires. Residences and wildlife habitat remain threatened. Rapid rates of spread with flame lengths up to 15 feet were reported. The Union and Secret fires doubled in sized.

ANDERSON, Cibola National Forest. A Type 2 Incident Management Team (Lineback) is assigned. This fire is 13 miles north of Mountair, NM in logging slash, grass and understory. Communications sites remain threatened. Creeping fire with isolated torching was reported. Burn out operations on the north flank were successful.

CLAYTON, Gila National Forest. This fire is five miles east of Willow Creek, NM in brush and timber. Minimal fire behavior was reported.

POTATO COMPLEX, Apache-Sitgreaves National Forest. This complex is 10 miles northwest of Heber-Overgaard, AZ in ponderosa, pinyon pine and grass. No new information was reported. This will be the last report unless new information is received.

KINLICHEE 02, Navajo Regional Office, Bureau of Indian Affairs. This fire is 10 miles east of Ganado, AZ in pinyon pine and juniper. No new information was reported. This will be the last report unless new information is received.

SKATES, Gila National Forest. A Fire Use Management Team (Hall) has been ordered. This lightning caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 12 miles northeast of Silver City, NM in timber. Minimal fire activity was reported.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

ANNABELLA, Fish Lake National Forest. A Type 1 Incident Management Team (Muir) has been ordered. This fire is three miles southwest of Annabella, UT in timber. Residences are threatened. Steep terrain and difficult access are impeding containment efforts. Rapid rates of spread with crowning, torching, and long range spotting were reported.

NORTH SAND MOUNTAIN, Richfield Field Office, Bureau of Land Management. This fire is 25 miles west of Nephi, UT in grass, brush and pinyon pine. Running and torching fire behavior were reported.

CHIPPEAN RIDGE – WFU, Manti-Lasal National Forest. This formerly reported lightning-caused Wildland Fire Use (WFU) is being managed to accomplish resource objectives. The fire is burning 18 miles west of Monticello, UT in brush. This will be the last report unless significant activity occurs.

SNAP, Arizona Strip Field Office, Bureau of Land Management. This fire is 54 miles south of St. George, UT in grass and brush. No new information was reported.

DEATH RIDGE, Bear River Area, Utah Division of Forestry Fire & State Lands. This fire is 36 miles north of Delle, UT in grass. No new information was reported.

BLACKBIRD MINE, Fishlake National Forest. A Fire Use Management Team (Stanich) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning six miles east of Marysvale, UT in brush, grass and mixed conifer. No new information was reported.

ALASKA AREA INCIDENTS/LARGE FIRES:

PARKS HWY, Fairbanks Area Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire, formerly named TAMARACK, is ½ mile southeast of Nenana, AK in black spruce, tundra and grass. Evacuations remain in effect for numerous residences. Two fuel farm tanks, one subdivision, Fairbanks-Anchorage powerline, Alaska railroad and the George Parks Highway are threatened. Running, crowning, torching, spotting and wind driven fire behavior were reported.

OUTLOOK:

Red Flag Warning: For strong south winds over the north slopes of the Alaska Range, central and eastern interior, the Kuskokwim Valley and the Copper River Basin. Saturday afternoon and evening for southwest deserts and south central mountains of Utah for strong winds and low RH.

Fire Weather Watch: For strong winds for the Matanuska Valley in Alaska. Portions of northwest Arizona for strong winds and low humidity.

Weather Discussion: A low pressure trough will continue over the Pacific Northwest with high pressure over the center of the country. This will produce dry, gusty southwest winds over much of the Intermountain West. Florida will remain mostly dry along with low humidity in the northern portions of the state. In Alaska, a strong southerly flow will bring gusty winds and low humidity to portions of the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Area Mostly sunny, much drier and breezy to locally windy across Arizona and the northwest half of New Mexico. Partly cloudy and drier with a slight chance of thunderstorms eastern New Mexico into west Texas.	90 to near 108 lower elevations. 70 to 90 mountains.	5 to 15%, except 15 to 25% highest mountain areas and parts of west Texas.	Southwest 15 to 25 mph with higher gusts across Arizona and the northwest half of New Mexico. South to southwest 10 to 20 mph across the remainder of New Mexico and west Texas.
Eastern Great Basin Area Idaho, Bridger-Teton: Partly cloudy, isolated mountain thunderstorms. Northern Utah: Partly cloudy, isolated s. mountain thunderstorms. Southern Utah, Arizona Strip: Sunny and breezy.	Idaho, Bridger-Teton: 55 to 65 mountains, 65 to 77 valleys. Northern Utah: 63 to 75 mountains, 75 to 88 valleys. Southern Utah, Arizona Strip: 70 to 85 mountains, 85 to 99 valleys. 99 to 105 low deserts.	Idaho, Bridger-Teton: 35 to 60% mountains, 20 to 35% valleys. Northern Utah: 30 to 40% mountains, 17 to 30% valleys. Southern Utah, Arizona Strip: 15 to 25% mountains, 10 to 20% valleys.	Idaho, Bridger-Teton: W to SW 8 to 15 mph, except 15 to 20 mph east Idaho, western Wyoming. Northern Utah: S to SW 5 to 15 mph. Southern Utah, AZ Strip: SW 15 to 25 mph.
Alaska Area Partly to mostly cloudy with a slight chance of afternoon thunderstorms in the central interior and a chance of showers in south central.	60s and 70s.	15 to 40%.	Southwest winds 10 to 20 mph with gusts 30 to 40 mph over hills and through the Alaska Range and along the Copper River.
Western Great Basin Area Mostly sunny skies.	N. valleys: 71 to 86. S. valleys: 86 to 109. N. mountains: 68 to 75. S. mountains: 70 to 80.	N. valleys: 12 to 23%. S. valleys: 6 to 12%. N. mountains: 17 to 28%. S. mountains: 12 to 18%.	South to west at 5 to 12 mph with localized late afternoon gusts to 25 mph.
Southern California Area Areas of morning low clouds and fog to the lower coastal slopes, otherwise mostly sunny.	70 to 85 mountains. 75 to 90 valleys. 85 to 95 upper deserts. 100 to 110 lower deserts.	50 to 70% coastal areas. 30 to 50% valleys and coastal slopes. 15 to 30% mountains. 10 to 20% deserts.	Southeast to southwest 10 to 20 mph.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern Rockies Area No information was reported.			
Southern Area No information was reported.			
Rocky Mountain Area No information was reported.

Taking A Nap Near The Fireline

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- To reduce risks:
 - Keep lookouts posted; rotate lookouts.
 - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they fine to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
